

Commercial Pilot Finds Success in Network Marketing

Glyn Taylor of Pleasanton, Texas, had reached the top of his profession as a commercial pilot for a large international airline company. Glyn shares, "Although I was very satisfied with my income, I desired to spend more time with my lovely wife and two-year-old son. I have friends in the network marketing industry that are earning nice incomes while working out of their homes and spending precious time with their families. This last year I decided this was the life for me."

Glyn is no stranger to network marketing. On a part-time basis, he has been involved in the industry for more than 15 years. As a full-time marketer Glyn hit the ground running. He spent the first two months as a full-timer working his business in Asia. "I enjoy traveling and plan to take this amazing product and opportunity worldwide. My downline partners can rest assured that I am eager to personally assist them wherever they live. They can count on me," Glyn enthusiastically shares.

"Network Marketing is a serious business to me. I did my homework in selecting a program. I knew I needed an exclusive blockbuster product that could open doors for my downline partners. Also, I knew it was vital to connect with effective upline support. Effective support and training is a very important key to success in this industry. After extensive research and careful consideration I teamed up with a self-made millionaire, Mike Akins. I have learned a very important lesson in this profession, and that is the best way to become successful is by helping others become successful. If you focus on helping your distributors be all that they can be, you will become your best," Glyn declares.

Glyn goes on to say, "You have to believe in what

you do. A personal testimony from your heart will do more than a lot of eloquent words. The product was an important part of my decision. I have tried the money games and they just don't last. Our Flagship product, Transfer Factor, is literally changing my life. There are more important things in this life than money and one of them is your health. I am reaching levels of healthiness that I never dreamed possible. It helps to have a heartfelt conviction in what you are doing. I sincerely believe I am changing and saving lives."

It appears that Glyn will replace the income that he has developed over a thirty-year career as a pilot in less than one year of being full-time in this industry. His wife, Li Ling, is expecting a new addition to the family in January. She enjoys having Glyn at home by her side. She says, "There are so many things that we can do now, that we couldn't do before. It is like having your dreams come true."

The Taylors enjoy working out together and spend a great deal of time in Christian activities. Glyn's favorite physical fitness activity is exercising on his rowing machine. One of the products he markets also helps him stay in shape at 6' tall and 185 lbs.

Glyn and Li Ling enjoy the close relationships that they have developed through their business. Glyn points out, "What better foundation for life-long relationships could you have than sharing each others dreams and being involved in each others success? I work hard for my friends and never give up until they have achieved their goals. It is not only fun but it is fulfilling. I will do this the rest of my life."
