IIII Editor's Corner:

(Mike Akins - PN Founder // 4Life Gold International Diamond)

PN => \$700,000 ABOVE Last Month!

Hi Valued Team Members:

Congratulations to each of you for a record breaking month. You exceeded last month's sales record by \$700,000! I extend a warm appreciation to each of you for the part that you played in this record. When I report a record month for Professional Networkers, I am not referring to my personal distributorship position, my personal

efforts or that of my staff. The Professional Networkers' organization includes every single person that is a customer or distributor in our group.

I am not saying that my staff and I have helped everyone in our organization become successful. We have great leaders that are very capable of building a great business without our support. We do our part in helping a great number of distributors throughout the world. I am saying that we have a great Marketing FAMILY, that as a whole, care about others - and are doing a great job of taking Transfer Factor to the world and building people.

Why should we rejoice at such a record? Think about how many more lives are being touched in some way or another. How much more suffering has been relieved? How many more lives have been spared?

Why should a record month be so exciting to you? What does it mean to you? When our organization grows at such a leap into orbit, it means new talent is being brought on to our team, which means more talent is available to create better marketing tools, systems and strategies for you and your downline partners. It means that more money is available to invest back into support and building each of your businesses. More success around you can effect you and your prospects.

One of my goals is to utilize my 39-year experience to not only help those that need help to develop a residual income - but to assist in ensuring that your residual income is lifelong.

I have been around long enough to realize that developing a lucrative income is only half the equation. So many network marketing leaders have worked their hearts out to build a future for their families only to lose it in five or ten years. It doesn't have to be that way.

Why do I spread staff and myself so thin? I have talked on the phone today for more than eight hours. Only thirty minutes of this time was invested where I would most increase my income (from going Platinum). Today I talked to distributors from South America, USA, Germany, Poland, Russia, Malaysia, Australia, Philippines and Thailand. Why do I invest in areas that I don't earn a dime in or very little from? Because I am building a solid foundation for all of us that will last a lifetime.

I am sharing this information for two reasons. First, so we can rejoice together for a wonderful month. Secondly, so that you will understand and follow this marketing philosophy of focusing on building solid and not just focus on the quick buck or a pin level. Let's join together as a worldwide marketing family, caring for each other and building a secure future together. Thank you for listening. Be blessed. Mike Akins
